

STEP 8:

Wrap your completed animal around a portable coffee cup. Measure where your hook & loop should fasten, then glue down the opposing sides. You now have an adjustable coffee cozy!

You can use this same pattern to create a variety of fun coffee cozies using felt! Try creating additional animals or remove the ears and add hearts, flowers, or even yummy treats!

INSTRUCTIONS:

STEP 1:

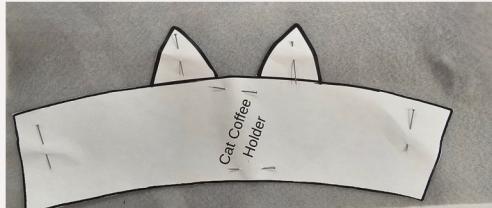

Choose your animal pattern and cut out the pattern pieces.

STEP 2:

Pin the pattern pieces to the correct felt colors (or trace them). You will make 2 pink inner ear pieces, 2 black eyelash pieces, 2 dark green leaves, and 2 light green leaves.

If you are making a cat, cut out 6 small black strips for whiskers.

STEP 3:

Cut out your felt pieces.

STEP 4:

To create the eyelashes, you will fringe them by cutting along the long edge about $1/8$ " apart, and stopping about $1/4$ " from the opposite edge.

STEP 5:

Lay out your animal face. Glue the on the inside of the ears. Add the eyelashes, bending and curving them to your liking. Add the heart nose.

STEP 6:

Use the black Sharpie to draw a mouth using a light sketching motion. Draw a line down from the bottom of your heart, then two curves in opposite directions to create the mouth.

STEP 7:

Assemble your flower by gluing the center and the leaves to the petals. Place the flower where you like and glue it down.
