CULTURE & COMMUNITY THRIVE HERE.

INSTRUCTIONS:

STEP 1:
Fold two coffee filters in half.

STEP 2:
Fold coffee filters again into fourths.

STEP 3:
Fold coffee filters again into sixths.

STEP 4:
Fold coffee filters again into eighths.

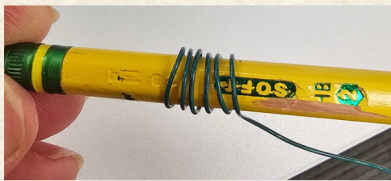

STEP 5:
Keeping your filters folded, take your scissors and create a scalloped edge around the top of the filters. You can choose how shallow or deep you would like your scallop to look.

STEP 6:
Repeat Steps 1 through 5 three more times.

STEP 7:
Fold your floral wire in half. Using a pencil, wrap the end of your wire several times to create a coil. Press your coil together as you slide it off of the pencil. This will make a center for your flower and keep the wire from sliding

STEP 8:
Poke the floral wire through the center of the first coffee filter petal. Put glue around the coil to secure it to the filter and twist the bottom of the filter. Place glue on the bottom of the twisted filter, add the next filter, twist, and squeeze. Repeat until all of the filters are glued.
